SUMMARY

I am fresh graduate in information technology, with a strong interest in building a career in web development. **I have experience as a full-stack developer using Laravel and am skilled in Python, HTML, CSS, JavaScript, Laravel, IT Support, and Project Management.** I am accustomed to developing front-end interfaces and enjoy learning new technologies. During my studies, I actively participated in student organizations, which helped me improve my teamwork, communication, and leadership skills.

SKILLS

Skills & Tools : Web development, front-end and back-end development, HTML, CSS, PHP, Python, Laravel, CodeIgniter, UI/UX, React, Javascript, database management, problem solving, analytical thinking, teamwork, communication, IT support, and project management.
